A Client by placing a Bet or making a claim for a winning bet or Refund for an Accepted Bet:
(a). agrees to be bound by, and acknowledges the validity and enforceability of, these Rules;

These Rules (including the Appendices hereto) shall be governed by, subject to and interpreted in all respects in accordance with, the laws of the Republic of Mauritius.

The Courts of the Republic of Mauritius shall have exclusive jurisdiction over any and all disputes arising out of or in connection with these Rules, including but not limited to disputes as to the validity or interpretation of these Rules.

9. BET TYPES

A. WIN BETS

A punter places a bet on the horse and wins if the horse wins the race. Win bets can be played as part of an all-for-all (fold betting or lever piler).

The unit bet shall be Rs1.00.

The unit dividend is calculated by dividing the Net Pool by the total number of unit bets collected.

In the event of a dead-heat, the dividend is divided equally among the number of winners and then divided among the number of unit bets for each winner.

If the selection of a win bet is withdrawn or declared non-runner, the bet is refunded.

B. PLACE BETS

A punter places a bet on a horse and wins if the rank of horse is among the 'place'. For the purpose of this bet, a horse is ranked among the 'place' if:

- it comes out first, second or third in a race with 6 or more runners
- it comes out first or second in a race with less than 5 runners

Place bets is not offered for on races with less than 5 runners. Place bets can be played as part of an all-for-all (fold betting or lever piler).

The unit bet shall be Rs1.00.

The unit dividend is calculated by dividing the Net Pool by the total number horses ranked among the 'place' and each part thereof divided by the number of unit bets collected.

In the event of a dead-heat, the dividend is divided equally among the total number horses ranked among the 'place' and then divided among the number of unit bets for each selection.

If the selection of a place bet is withdrawn or declared non-runner, the bet is refunded.

C. EXACTA

The punter places a bet on two horses which represent the rank of the horses in correct finishing order, that is first and second.

The unit bet shall be Rs1.00.

The unit dividend is calculated by dividing the Net Pool by the total number of unit bets for the winning combination.

In the event of a dead-heat, the dividend is calculated by dividing the Net Pool by the total number of winning combinations and each part thereof divided by the number of unit bets for the combination.

If the selection of an Exacta is withdrawn or declared non-runner, the bet is refunded.

D. TRIFECTA

The punter places a bet on three horses which represent the rank of the horses in correct finishing order, that is first, second, and third.

The unit bet shall be Rs1.00.

The unit dividend is calculated by dividing the Net Pool by the total number of unit bets for the winning combination.

In the event of a dead-heat, the dividend is calculated by dividing the Net Pool by the total number of winning combinations and each part thereof divided by the number of unit bets for the combination.

If the selection of a Trifecta is withdrawn or declared non-runner, the bet is refunded.

E. QUARTET

The punter places a bet on four horses which represent the rank of the horses in correct finishing order, that is first, second, third and fourth.

The unit bet shall be Rs1.00.

The unit dividend is calculated by dividing the Net Pool by the total number of unit bets for the winning combination.

In the event of a dead-heat, the dividend is calculated by dividing the Net Pool by the total number of winning combinations and each part thereof divided by the number of unit bets for the combination.

If the selection of a Quartet is withdrawn or declared non-runner, the bet is refunded.

F. DOUBLE

The punter needs to select two horses from 2 races and both horses must win the race.

The unit bet shall be Rs1.00.

The unit dividend is calculated by dividing the Net Pool by the total number of unit bets for the winning combination.

In the event of a dead-heat, the dividend is calculated by dividing the Net Pool by the total number of winning combinations and each part thereof divided by the number of unit bets for the combination.

If the selection of a win place is withdrawn or declared non-runner before the start of the event of the first selection, the bet is refunded.

If the selection of a win place is withdrawn or declared non-runner after the start of the event of the first selection, the selection is replaced by the Tote favourite.

G. TRIPLE

The punter needs to select three horses from 3 races and all three horses must win the race.

The unit bet shall be Rs1.00.

The unit dividend is calculated by dividing the Net Pool by the total number of unit bets for the winning combination.

In the event of a dead-heat, the dividend is calculated by dividing the Net Pool by the total number of winning combinations and each part thereof divided by the number of unit bets for the combination.

If the selection of a win place is withdrawn or declared non-runner, the selection is replaced by the Tote favourite.

H. SWINGER

The punter places a bet and select three horses which represent the rank of the horses in any finishing order. For races with less than 6 runners, two horses need to be selected and they need to finish first and second, in any order.

The punter places a bet on four horses which represent the rank of the horses in correct finishing order, that is first, second, third and fourth.

The unit bet shall be Rs1.00.
